

*Draw yourself behind the steering wheel of the snowplow
and color the picture!*

*Draw a snowman
here!*

Know Snow!

- Did you know that ADOT's snowplow drivers – 400 of them in all – typically work 12-hour shifts during storms?
- Did you know that the safest place to be is four car lengths behind a snowplow, and that it's never safe to pass one until it pulls over to let you by?
- Did you know that ADOT annually spends between \$5 million and \$8 million on winter safety operations?

Share these snow plow facts with your parents and have them check out ADOT's Know Snow website for driving in snow tips!
